Infusion Counted Among Top Finalists for the 2010 Microsoft Partner Awards in the Category Custom Development Solutions, Web Development Partner of the Year

Toronto, ON, Canada — June 23, 2010 — Today, Infusion announced it has been selected as a finalist for the Microsoft Partner Awards in the Custom Development Solutions, Web Development Partner of the Year award category.

Awards will be presented in a number of categories, with winners and finalists chosen from a pool of almost 3,000 entrants worldwide. The Custom Development Solutions, Web Development Partner of the Year Award recognizes exceptional, innovative partners who focus on the development of customized web solutions built on Microsoft technologies. Custom development partners deliver highly customized Web solutions to support customers' unique business practices, deliver one-off enhancements that enable customers to integrate existing systems with new technologies, deliver exciting consumer-focused campaign applications, or develop extensions to existing Microsoft solutions that the customer may already employ. This award honors **Infusion** for serving unique customer needs by developing on and with Microsoft technologies and solutions in the area of custom web development.

"Congratulations to the 2010 Partner Award finalists for delivering such creative and superior Microsoft solutions and services," said Allison Watson, Corporate Vice President, Worldwide Partner Group, Microsoft Corp. "It's incredible to see the level of expertise our partners continue to exhibit as they create and deliver innovative solutions and services to grow their businesses, meet customer needs, and drive down costs."

The Microsoft Partner Awards recognize Microsoft partners that have developed and delivered exceptional Microsoft-based solutions over the past year.

[Infusion](#) solves business problems for many of the world's largest brands and government organizations by combining expert software engineering with appealing user experience design. Through a unique combination of enterprise development, innovative design, and a commitment to emerging technologies, Infusion delivers a full suite of information technology services including: custom architecture, training and mentoring, hosting and support, and user experience design.
